

WPC Fuse

A secondary schools education program

NEWS!

The World Parks Congress is coming to Sydney.

Key Target 11 - There is a significantly greater participation of younger people in the governance and management of protected areas

National action - Include environmental education as a fundamental component of curricula at all levels of education, with a particular emphasis on the importance of protected areas

DURBAN ACTION PLAN 2004

- What is the IUCN and how does it work?
- What is the World Parks Congress?
- What will it investigate and report on?

“Our attitude about something is based on a small subset of truly pertinent beliefs we have about it. It is not a result of general factual knowledge.”

Can Communication Make a Difference? © 2011 Sam H. Ham

FUSE

Fuse - to light the fuse of interest and passion for conservation in students and their school.

Fuse - to bring together schools and the professional world of land management and environmental research.

Output opportunity - Youth Eco Summit (YES) - October 22 & 23

WHERE THE PROGRAM SUCCEEDS ...

- It contained challenging content based on real world issues
- Opportunity to visit natural environment and challenge some students
- The program include a variety of tasks and skills
 - Research skills
 - Field work
 - Data analysis
 - Story telling
 - Video and media skills
 - Presentation skills

LESSONS LEARNED...

- Fewer projects
- Flexibility to allow projects to evolve to meet the needs of the school
- Not all the schools made full use of their mentors
- Fuse website other options...
 - Students could develop their own site
 - Schools could use their own social media platforms

PARTNER OPPORTUNITIES TO DEVELOP & DELIVER OUR PROGRAMS

- DART (Distance And Rural Technologies) – connecting schools & mentors
- Department of Education and Communities, - developing curriculum links
- The Sydney Olympic Park Authority education program & Youth Eco Summit,

FUSE
